Certifications

- Jspiders - Java Full Stack Development
- Core Dataiku
- Advance Dataiku

Skills

- Core Java
- SQL
- HTML
- CSS
- JavaScript
- React.js
- Python
- Generative AI
- Agentic AI
- Dataiku

Education

04/2024

Bachelor of Engineering:

Computer Science and Engineering

RMK College of Engineering and

Technology

Chennai

CGPA: 8.64

06/2020

Pre-University:

MPC

Sri Vivekananda Junior College

Vinjamur

CGPA: 8.38

06/2018

High School :

SSC

Narayana E.M High School

Vinjamur

CGPA: 9.3

BHARGAVA REDDY D (20683129)

Personal Summary

Passionate about building AI-powered and full-stack applications with strong problem-solving skills. Eager to learn, innovate, and deliver impactful solutions.

Experience

Project Engineer

wipro | Feb 2026 - Present

- Developed proficiency in SQL and Python through training.
- Earned Dataiku Certification with hands-on experience in data workflows and analytics.
- Applied SQL, Python, and problem-solving skills to data processing and analysis.

Internships

Jspiders - Full Stack Intern

08/2024 - 02/2025

- Trained in Java SE, Java EE, SQL, HTML, CSS, JavaScript, and Basics of Data Structures.
- Executed Projects-full-stack e-commerce web application Shop Nest.
- It includes features such as product catalog, shopping cart, payment gateway, integration, order management, user accounts, and customer support.
- The main objectives of an e-commerce website application.

TRIOS Technology - Java Developer Intern

03/2023 - 04/2023

- Developed dynamic web pages using Servlets and JDBC for efficient student record management.
- Ensured security by preventing SQL injection, validating inputs, and implementing exception handling.
- Applied MVC architecture for maintainable features like student registration, attendance, and grading.

Projects

Skin Cancer Detection and Classification | Deep Learning

- Developed a skin cancer detection system using Python and CNNs, with both GUI (Tkinter-based) and non-GUI (Gemini AI-integrated) models.
- Overcame challenges in training on large datasets by optimizing accuracy and usability.
- Future plans include developing a mobile application for improved precision and accessibility.

Movie & TV Show Discovery Platform | React.js

- Built a movie & TV discovery app using React, Vite, TMDB API, and Tailwind CSS.
- Developed a Gemini AI movie agent with text/voice search, providing cast, director, ratings, overview, and watch options.
- Added authentication, watchlists, smart search, and interactive AI movie cards.
